# The Passing of the Torch

*From*

*JUPITER (ruler of the Piscean Age)*

*To*

*SATURN (ruler of the Aquarian Age)*

# Preface

January 1, 2021

This document was written to inform interested parties about the Passing of the Torch – from that of Planet Jupiter, representing the Great Age of Pisces, to the Planet Saturn, representing the Great Age of Aquarius. The Age of Aquarius has begun. It is nearly the opposite of the dark and watery sign of Pisces. Aquarius is an Air sign and as long as humans occupy the Planet Earth, they will see and feel life very different than humankind has ever experienced before.

While this document does not give an account of the Age of Aquarius, which will be in Part Two. Part One helps people to understand why the past 2060 years played out the way it did. What the ‘dark’ was in the Dark Ages. Explains who and what the ‘beast who rises up from the Sea was all about and how it influenced the entire Age of Pisces.

There is no politics in this document, however, it does explain how and why we had a Holy Roman Empire when we did. Why Rome was the city which represented the entire Great Age of Pisces. Pisces is a water sign; Aquarius is an air sign.

Most of this article explains what Jesus / Yahshua meant when He said that he came to bring us Good News about the Kingdom of God. He wanted to make people aware of God’s Heavenly Kingdom. Yet today, I doubt there is any church leaders who operate under the auspices of Christianity that even knows what the Kingdom of Heaven is all about or what it means. It didn’t matter to them that this Kingdom had to be made aware of, told about, be informed of – before the second coming of the Messiah. They completely ignored it and allowed the Church to wander off into some dark abyss.

This document is my attempt to inform the masses what Jesus / Yahshua wanted you all to understand. Hopefully, He will help to get this document out to whomever is supposed to have it. Those who have a veil over their eyes will not want it – that OK, as not all people are called out to hear about the Heavenly Kingdom and the message of Jesus / Yahshua. This is only for those who have their eyes and mind open as a small child.

You will notice that I refer to Jesus with his Hebrew name, Yahshua...sometimes use both names. This is to include both schools of thought on his Latin-Greek name and his Hebrew name. Next page I include a dream that I had back in 1986. Since then I have been preparing for this day in our history.

Sincerely,

Betty Matteson Rhodes <https://the-red-thread.net>

Betty Matteson Rhodes

## DREAM OF GOING UP THE WATERFALLS TO THE MOUNTAIN TOP WITH YAHSHUA

Dream occurred on FEBRUARY 14, 1986

Beginning of Dream:

A Holy man (whom I assumed at the time was Jesus), appeared in a long white robe and above his head was a radiant glowing crown. He walked along the river's bank studying intently the waters flow. He walked for some distance looking continuously into the river and as he walked the river bank I followed him. He realized, I felt, but did not acknowledge, my presence at this time. I knew that he wanted me to follow his footsteps along the river.

Second Scene

The scene changes to a mammoth a three-tiered waterfall with plummeting water of great force and tremendous volume. It seemed these waterfalls reached all the way up to heaven. The heavenly man proceeded to walk directly up the waterfalls. I, in turn, followed him although extremely terrified. It was a treacherous ordeal for me to say the least but I knew I had to follow him. The waterfalls seemed to have stones in them which I used as steps to help my climb up the turbulent falls. I was, as I remember, scared to death.

After I reached the top of the highest falls, I found myself on top of a mountain. A very awesome mountain-top in fact. I saw the heavenly person standing there with his back toward me - he was looking upward - arms outstretched, palms upward. As he stood there I felt with all certainty, that he was communicating with the Great Almighty God. No words were spoken (out loud that is), but I knew he was conversing with the Supreme God. Thick dark mysterious clouds surrounded the mountain top and swirled around me like a thick fog. The feeling there on the mountain top was a most unforgettable and Holy experience indeed. I felt a sanctified glory in the air as if the very presence of God was there in the mist. A total awesomeness from the whole experience was beyond explanation, and one I shall never forget.

Third Scene

The Holy man then turned, and without yet acknowledging me following him, proceeded to go back down the waterfalls. I followed him. Going down was even trickier for me, not an easy task at all. While coming down the second tier of falls I was aware of people's voices shouting at me from the ground below. They were saying things like: "Get down from there." "Are you crazy?" "What are you doing up there?" "Get down from there this instant." I remember ignoring them and then continued to follow the Holy man down the falls.

#### Fourth Scene

The scene below was of a bazaar or fair. Many people had booths set up to sell handmade items and crafts. Homemade items were sprawled out over the grass as well. The Holy figure walked into one little shop where the workers had been making Easter candy. The workers were out to lunch at the time but there were various pieces of Easter candy laid out on the table. The Holy man picked up a piece of the candy, looked at it inquisitively, then he tasted it. He was quite unfamiliar with the taste and was wondering what it was. "Easter Candy." I heard myself say out loud, realizing his wonderment.

"Easter Candy." He repeated after me, then immediately laid it back down as it was strange in his mouth. He then left the shop and I continued to follow him. We observed many people buying pretty flower crowns from a vendor with a small stand. Everyone seemed to be wearing these beautiful flower crowns. They were very pretty indeed and for a moment I wanted one too, but as if through telepathy, the Holy one said 'No'. I also sensed that he did not want me to participate in any of their activities. I did as I was told and did not buy a flower crown.

#### Fifth Scene

In this scene the Holy one finally acknowledged me behind him, as he looked straight at me and a very loving feeling overwhelmed me. He was, without speaking, telling me that I was one of the chosen people of God and I was to be given a special task to do. I felt very joyous inside. Very positive and confident of his acceptance. Although I had looked right into his eyes, his face does not register in my mind today, only the overwhelming feeling of a holy kind of love and acceptance.

#### Sixth Scene

The scene changes to a very large room filled with people. I believe they were all 'women'. They were seated and being seated in pews. I was among them. We were all waiting for the Messiah. The Holy one had gone from my dream at this point, I know not why or where he had gone. All the people had their beautiful flower crowns upon their heads. They all seemed happy and confident having on these crowns.

I know that I did not have on a flower crown and assumed this was the reason why everyone was staring at me. They whispered to themselves while others looked at me as if singling me out. I then asked the lady seated next to me 'why are they all staring at me'. She told me that I had a glowing radiant crown on my head of which they were all intrigued. I felt my eyes look upward and sure enough I saw a brilliant shining glow above my head. It was not a tangible crown but rather like a glow from a hundred candles.

Instantly I knew this crown was a gift from the Holy one and was not unlike his own. I was very glad that I had not purchased one of their pretty flower crowns, as I was now aware of the fact that their crowns would soon wither away. Mine was the real thing and would last forever - this I felt with all certainty.

I sat there feeling quite at peace. My heart was very still and I quietly awaited with the others for the coming of the Messiah. A joyous happy feeling filled my entire mind, body and soul. A contentment beyond words. End of Dream

Location of Dream: Lakewood, Colorado

February 14, 1986 - 3:00 AM

From that very day forward, I have been diligently studying, learning, seeking knowledge and wisdom beyond that of the 'flower crowns'.

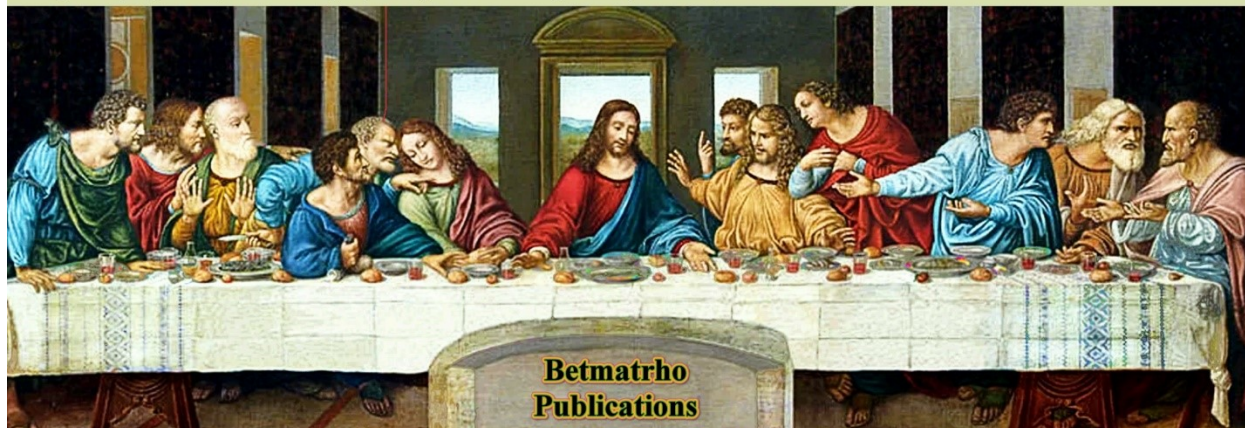

# The Great Ages

## Jesus represents the Sun

The disciples seated around Jesus represent the following in the order as seated:

The twelve signs of the Zodiac:

Aries (1st sign of Zodiac), Taurus, Gemini (twins), Cancer (notice the knife in his hand), Leo, Virgo (Mary), JESUS, Libra (scales), Scorpio (with stinger), Sagittarius, Capricorn (harvest sickle), Aquarius (old man Cronus), Pisces (two fishes)

The long-suffering ‘**GREAT AGE OF PISCES**’ has officially ended with the closing of the year 2020 - December 21, 2020, to be exact. This official Passing of the Torch happened to be on the day of the Winter Solstice, which is significant in itself as it takes place in the Heavenly Kingdom, not via some man-made holiday or tradition. People around the globe either witnessed the Passing of the Torch from Jupiter to Saturn or they surely have heard about it. Some even called the conjunction, ‘the Christmas star’.

**Definition of a Great Age is:** The Great Ages are based on the precession of the equinoxes and the retrograde vibration of the earth's axis through the twelve constellations, which lie in a circle around the earth along the ecliptic, the belt of the equator.<sup>1</sup> This retrograde, or backward motion, takes 25,920 years to complete, so in one complete cycle there are twelve Ages of an average of 2,160 years each – constellations are different sizes.

This heavenly conjunction at the end of 2020 signifies the official ending of the Great Age of Pisces and the official entering into the Great Age of Aquarius. There was an overlapping seen, but especially felt, of both signs from year 1900 AD to December 21, 2020, like having a conjunction of two signs, but now the Age of Pisces is behind us and many new challenges will confront us in the years, decades, centuries and millennia to come. There are twelve Great Ages in total, but since mankind’s current Era of civilization,

---

<sup>1</sup> [https://www.astro.com/astrology/aa\\_article160602\\_e.htm](https://www.astro.com/astrology/aa_article160602_e.htm)

we have only lived since the Age of Leo, then progressed next to Cancer, next Gemini, next Taurus, then Aries, then Pisces, up to Aquarius, where we are currently.

**“Our Father who art in heaven, hallowed be thy name; THY KINGDOM COME; thy will be done; on Earth as it is in Heaven.”**

“In the 20th century, Professor Karlis Kaufmanis, an astronomer, argued that the *(Star of Bethlehem)*, was an astronomical event where Jupiter and Saturn were in a triple conjunction in the constellation Pisces. Archaeologist and Assyriologist Simo Parpola has also suggested this explanation.”<sup>2</sup>

How ironic that over 2000 years ago, in 7 BC, the same conjunction occurred – but in the sign of Pisces, thereby the official sign that the Great Age of Aries has ended and the official moving into the Age of Pisces has taken place. I’d be willing to bet that one also occurred on a Solstice date.

Historians label the millennia’s ages by associating humankind’s progress with certain metals, rocks or artifacts, such as the iron age, tin age, copper age, stone age, Renaissance age, Victorian Age, the Industrial Age and the plastic age (just threw that one in) – not listed in any particular order. Those labels pertain to the level of humankind’s progress, which also tells how and when they traversed across the continents. That list deals with people, not what’s going on in the Heavens.

There are those people who look to the Heavens and the Kingdom thereof, called the Mazzaroth in the book of Job - and by myself. An eternal realm fashioned by our Creator, and so far, untouched by humans – meaning they haven’t caused Venus to change its orbit so it doesn’t always follow the Sun, or causing Saturn to share its rings with planets that have no rings.

The Solar System and all the glorious stars, galaxies and the beauty and influence thereof, is what Yahshua (Jesus) was referring to when he came to teach about the ‘Kingdom of Heaven’. His timing was right as He knew there was a monstrous religion or two, waiting behind door #12 that was going to destroy the wisdom of the Creator’s Heavenly Kingdom – which was the Creator’s ‘religion’ for lack of a better word, and not some Piscean-Age religion that needed blind faith, or kissing a pope’s ring. The Mazzaroth was created for all human kind, not just those in bondage to religions that breed hate, wars, lost souls, dead people and lies upon lies. Not to mention that the authors of manmade religions reject the wisdom of the Mazzaroth’s greatest gift to mankind. Spiritual gifts beyond our ability to figure out the sum of, and probably never will. People claiming to know the Creator of all things, yet they spew hatred out of their mouths for the Creator’s Heavenly System and the influential workings thereof. They prefer to walk to the beat of manmade religions. What a terrible, tragic shame, but like it or not, before another hundred years

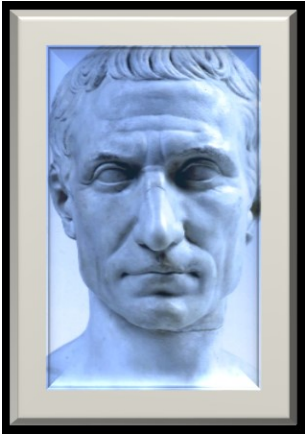

---

<sup>2</sup> <https://sites.google.com/site/astrologicalstarofbethlehem/>

are up in the Great Age of Aquarius, every man, woman and child will know all about the workings of the Solar System and how it influence's our lives on a daily basis. How the Kingdom of Heaven rains down blessings, talents, opportunities, intuition, inspiration, and yes...even punishments.

All throughout the last 2000-2100 years, life has been anything but peaceful, harmonious and without needless wars and death under the tumultuous Piscean Age. Wars in the name of religious convictions have resulted in millions of deaths from the reaction of hatred for one's enemy. The Age of Pisces, being the twelfth sign around the Mazzaroth, was the epicenter of suffering and death. Precious and pertinent history became hidden behind a veil of secrecy, thanks to the beast that rose up from the Sea to exercise its pattern of power. Deceitful falsehoods have been covered up with borrowed traditions from the past. Cunning ways to incorporate known gods of the Roman and Greek traditions into a religion that insisted the membership of which, would guarantee one's prominent place in Heaven after death. All as a means to keep the true teachings of a prophet, a teacher, hidden from mankind. Have you ever wondered why TPTB at the time wanted Yahshua taken out – dead, at the time? What really happened to the message of Yahshua, pronounced Yah-shu-ah? Why was it so important to keep his message from the masses of common people <sup>3</sup>.

A Great Age lasts an average of 2160 years in length, some longer, some shorter - not all of the same in duration. The Constellations, through which Earth travels are of various shapes and sizes so some Great Ages last longer than others. The Great Age that we just left was that of Pisces, or the Piscean Age, which began about the time of Julius Caesar (pictured at left) who lived from 100 BC - 44 BC. Caesar was co- ruler and founder of the 3<sup>rd</sup> Triumvirate of Rome and is best known for his Julian calendar that was in effect for about 1600 years...ending in 1582 AD when the Gregorian Calendar was introduced. This later calendar was so-named for Pope Gregory XIII of the Roman Vatican. The Gregorian Calendar is in use for most countries <sup>4</sup> of the world today, but no matter which calendar, Julian or Gregorian, they both were introduced by Rome. The city that represented the Great Age of Pisces, is in fact, Rome. Sometime during the Age of Aquarius, I'm most positive that the yearly calendar methods of counting the centuries will all change, along with many other traditions, methods of procedure, dates BC / DC will be changes, and culture developments will also be modernized – installing the latest state of the art procedures and methods.

Note for younger readers: years during 'BC' years started out large in number, such as, when we consider 5,000 BC and come forward in time, the years are remembered as coming downward in count

---

<sup>3</sup> Common people were everyday people that were not part of the 'elite' group

<sup>4</sup> North Korea, China, Saudi Arabia are three countries that do not use the Gregorian Calendar

until we get to 1 BC, and thereafter the year '0' became year 1 AD on up to year 2020 – 2021. Sometime in the future – this counting and recording method will change.

From the time of Caesar's Comet of 44 BC, and the Julian Calendar of 45 BC, to the Winter Solstice of December 21, 2020, at which time we witnessed the planet formation/conjunction of Jupiter and Saturn, we were living through, and under, the influence of the Great Age of Pisces. We, on December 21<sup>st</sup>, 2020, witnessed the passing of the torch from one Great Age to the next Great Age. The ruler of Pisces - Jupiter, had passed the torch to Saturn, the ruler of Aquarius. Caesar's Comet was a 'forerunner' event for the coming of the Age of Pisces. (More on Caesar's Comet on page 25).

Caesar and the Comet Caesar of 44 BC  
image from <https://auctions.cngcoins.com>  
Caesar on one side and Comet on flip side

Jupiter and Saturn were the original rulers of these two astrological signs and Ages, Pisces and Aquarius. Since the discovery of planet, Uranus in 1781, it was assigned to the sign and Age of Aquarius - as co-ruler with Saturn. Likewise, when Neptune was discovered in 1846, it was assigned to the sign of Pisces as a co-ruler with Jupiter. Planet Venus is exalted in the Age and sign of Pisces, and results in Virgin Mary, mother of Jesus, being highly regarded, sometimes seen to be more sacred.

During the Great Age of Aquarius, which we have now officially entered, Mercury is exalted, which will result in truth coming to the forefront. No more vague, hazy secrets coming out of the city of Rome and out of the Vatican. While Rome represented Jupiter, the Vatican represented Neptune – nebulous, secretive, deceiving, things hidden from the ‘common people’.

There is an approximate one hundred-year overlap of two Ages when progressing from one Great Age to the next Age. The Great Age of Aquarius unofficially began to influence our way of doing things in the year 1900 AD with the coming of the automobile, telephones, electricity and eventually airplanes and rockets into space, which are all Aquarian in nature. Science, electronics, ‘state of the art’ inventions and gadgets will come on the market that will amaze the masses, there will be big advancements in transportation. These are what Aquarius is all about. Methods of communication will become easier, more precise. High-definition and 3-D will be greatly improved upon and astound the viewer. Academic learning for children will make the old-school methods of 1950 long gone to history. Brotherhood, socialism and philanthropy will come to the forefront. Tech giants will rule the day and we already see this happening – but there will be more of them.

However, there is a more significant, if not an official heavenly sign that we have indeed entered the Aquarian Age. This of course, was the recent conjunction of the two ruling planets Jupiter, ruler of Pisces; and Saturn, ruler of Aquarius, occurring on December 21, 2020, marking the Astrological ‘passing of the torch’ from the old Age to the new Age. This was a sign as important as the rainbow from the Great Creator of the Kingdom of Heaven. This formation informed us that the torch has been passed from Jupiter to Saturn - from Pisces to Aquarius.

The familiar story of the Star of Bethlehem from 2000 years ago was not a conjunction with these same two planets. That bright formation would have included Mars, the ruler of the previous Great Age of Aries, and Jupiter the incoming ruler of Pisces. Mars had passed the torch to Jupiter two thousand+ years ago. It would have been much closer to the Earth at that time and seemingly much brighter than the most recent formation that we witnessed. But I will leave that conjunction to the Astronomers.

First, a little background on what the sign of Pisces represents and how its elements were used to create an Age-long religion. For those who have a problem with Rome *creating* Christianity, remember, God didn’t sit at a desk penning the bible, men did – men who represented Rome are the authors of the

New Testament, which was first scribed 200 years after the death of Jesus. This is not to say those Roman men/monks weren't inspired by the Creator; however, I leave that up to you and the Creator.

The name 'PISCES' means FISH or fishes. Fish represented the Piscean Age and Zeus its God for the Age. Zeus was the Greek God of Jupiter – the New Testament was written in Greek language. The name 'Zeus' was written as 'Jesus' in English versions of the bible but they were intentionally penned to portray the same being, the God of Jupiter. The name, Jesus, was later given to the man of God in the NT to secretly fool the masses, but the name 'Jesus' in reality means 'hail Zeus'.

Below is a list of constellations in order of size

1. Virgo	4. Pisces	7. Libra	10. Scorpio
2. Aquarius	5. Sagittarius	8. Gemini	11. Aries
3. Leo	6. Taurus	9. Cancer	12. Capricorn

Below are keywords of Piscean symbols, patterns, methodology and representations. They represent significant aspects of the Piscean Age, Christianity, the Church, Rome, Jupiter, Neptune, the Vatican and the sign of Pisces. (these keywords can be easily researched and verified online.)

---

All of this is not to say that the religion of Christianity was a bad thing or Rome had evil intents. I do know, however, that with Neptune as co-ruler, great strides were taken by the early Church fathers to deceive and keep hidden their modus operandi. What the religion from Rome does show is the use of Astrological influences, traits, design and strategy. These are all patterns from the Kingdom of the Heavens in fact, which reflect below on Earth and on mankind. *'On Earth as it is in Heaven'* are words you repeat every time you recite the Lord's Prayer.

Albeit, whether the desired intent of the Creator is what occurred during the Great Age of Pisces, or that it was purposely altered, misconstrued with the true purpose killed, done away with, deleted and hidden. I believe the latter myself.

Was Rome and the Vatican aware of all the Astrological influences being portrayed when writing the historical script for Christianity? Were they so skilled in the science and workings of the Astrological kingdom that it was at the forefront of their criteria? Did they in reality, intently bury the truth about the true God of Pisces, substituting their own preferred God, Zeus, whom we now call Jesus? I can't answer that but perhaps they knew and did the switch to suit their own power grab for control, limelight and greed. Not to mention, the fact that a man named Jesus was killed, most of his disciples killed, Rome took over the complete control of the religion, thereby ignoring the followers of a man they called Jesus, which was actually a man named Yahshua. Why did Rome want Yah-shu-ah gone, why did they want his disciples gone... all followers gone. Why did Rome make their creation of Christianity mandatory? Either believe as they say, or die, and many thousands did die.

You must remember that the teachings of Astrological influences and the Kingdom that is above us in the Heavens is not a new-age thing. No, matter of fact it has been around since creation. It was taught at the same time as mathematics, early sciences, irrigation and agriculture methods were taught in the Mesopotamian Valley – the land of Sumer. Christianity didn't come on the scene until 2000 years ago, so if anything is new-age, it is Christianity. Knowledge on how the planets, Sun, moon and stars traveled and their influence upon man, was taught 4,000-5,000 years ago. On Rome's behalf, I will say that the sign of Pisces has always been known to be vague, hazy and unclear in outward appearances, leaving the victim holding only

PAPAL CRUCIFIX

cross

Neptune's trident

'faith' to live by. Reminds me of drifting helplessly on an ocean with no clear sight of land on the horizon; or like wandering thirsty, weak and tired across a vast desert and seeing an inviting oasis near the horizon that turns out to be only an illusion. Both scenes belong to Neptune's influence and 'illusion' is a good word for Neptune. This is the same with Christianity or any religion that

has its origins during the past 2000+ years; leaving only a vague-hazy hope, leaving a person stranded for centuries upon end with no foreclosure.

**But...did Rome/Vatican intentionally use Astrological symbolism to create Christianity? If they did, they were masters of the craft as the past 2000+ years have definitely played out true to form to the Astrological sign and its ruling planets. However, if they did NOT intendedly use Astrological symbolism and meanings to set forth the religion of Christianity, its traditions and state of affairs, during the Age of Pisces...who did? What if the Great Age of Pisces was truly inspired by the Kingdom of the Heaven and the Creator of all things, with the pattern from above being mirrored upon the Earth, the lives of mankind and our history. The question then arises, 'how important is knowledge of the Solar System, the influence of the planets, stars, Sun, Moon, Constellations, the Mazzaroth, all the Astrological patterns and their influence upon mankind? After all, this is God's Kingdom of Heaven – not by man's hand or creation.**

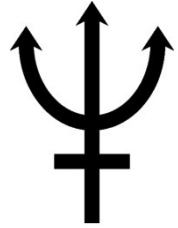

**Gospel of Thomas 113 – “His disciples said to him, "When will the kingdom (of Heaven) come?" Jesus said, "It will not come by waiting for it. It will not be a matter of saying 'here it is' or 'there it is.' Rather, the kingdom of the father is spread out upon the earth, and men do not see it."**

**1900 years after the Great Age of Pisces had come around... like a long giant wilderness humankind wandered through, making their way through the valley of the shadow of death; Neptune, was discovered. Neptune was quite a bit different than was Jupiter. Jupiter was powerful, strong, like Rome in its better day. Jupiter / Rome both wanted to rule the world. It was said of Rome that at the time of its zenith, 'all roads led to Rome' – whether you wanted to end up there or not. It was a city and power that was looked up to by many less powerful countries of the world but eventually fell to its demise in the year 476 AD at the hands of Germanic tribes. I won't get into that too much as that is for another time and place. [at right is the symbol for Neptune – closely resembling a trident is not a mistake. Also, 'bent' to become a cross of crucifixion.**

**Planet Neptune came on the scene in 1845-6 AD, first discovered by John C. Adams, but surely had been in the heavens ever since creation, we just hadn't discovered it yet. Seems that Light from the Sun reaches Earth before knowledge reaches us. Neptune is a Roman name - in the Greek, Neptune's name is 'Poseidon'. They are both one and the same entity and known as the 'god' of the Sea, which includes the water sign of Pisces. The biblical beast that rises up out of the Sea with a great Trident in his hand, is planet Neptune. Neptune, during the Great Age of Pisces, was jealous**

of Jupiter, the original *known* ruler of the water sign of Pisces, but after Neptune's discovery, became co-ruler with Jupiter. It was the influence of Neptune (portrayed as the Vatican) that put Zeus (portrayed as Jesus) upon the 'trident', disguised as a cross (of crucifixion), and thrown out of the Sign of Pisces. For 3 days (3 signs) Zeus/Jesus spent in 'hell' (limbo) before he arose from the tomb to be the magnificent ruler of the sign of Sagittarius.

**Passing the Torch from Jupiter to Saturn on December 21, 2020**

**Words of YAHSHUA**

**Matthew 23:39: For I say unto you, Ye shall not see me henceforth, till ye shall say, Blessed is he that cometh in the name of the YAH.**

**Luke 19:38: saying, Blessed is the King that cometh in the name of the YAH.**

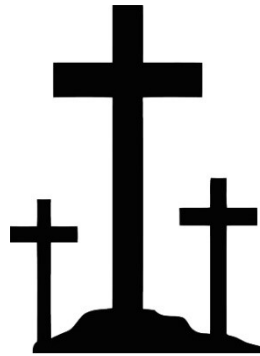

**John 12:12: On the morrow a great multitude that had come to the feast, when they heard that Yahshua was coming to Jerusalem,**

**John 12:13: took the branches of the palm trees, and went forth to meet him, and cried out, Hosanna: Blessed is he that cometh in the name of the YAH, even the King of Israel.**

**John 5:43: I am come in my Father's name, and ye receive me not: if another shall come in his own name, him ye will receive.**

**Why Christmas is Celebrated on December 25<sup>th</sup>: Charlemagne was crowned/coronated as Pope and Emperor on December 25, 800 AD. This is why Christians celebrate Christmas on this date every year. It was originally celebrating Charlemagne, not the birth of Christ.**

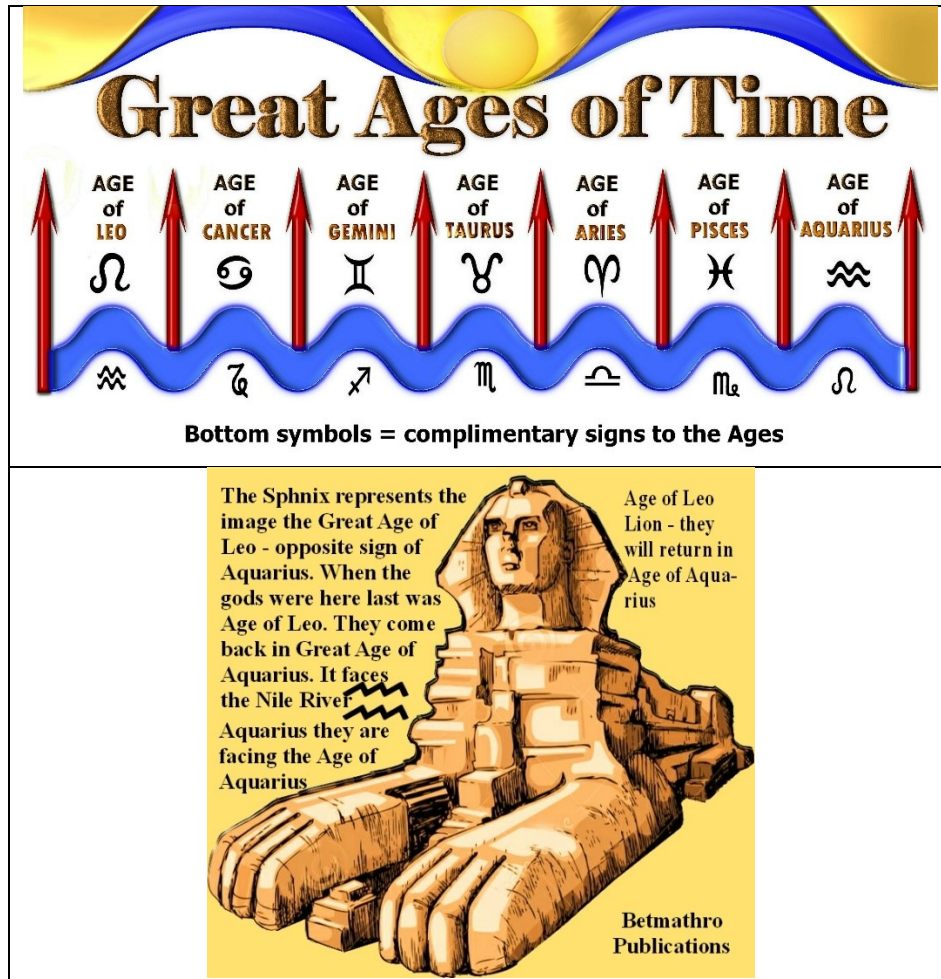

**Easter: Yah-shu-ah said he would be 3 days and 3 nights in the tomb = Jupiter was 'thrown out' of the sign of Pisces and would be the sole ruler the sign of Sagittarius – THREE signs/constellations over (30` degrees per sign x 3 signs = 90 degrees), during which time he was in the 'tomb'. After the 3 days and 3 nights in 'limbo', Jupiter arose as sole ruler of Sagittarius.**

Staff of pope tailored to resemble a trident? Notice how the pope stands between the two lions as if to represent the center cross (*as in photo to his right*) in the crucifixion of Christ, and the two lions representing the two criminals that were crucified with Christ. The pope holds the keys to heaven in his hand. Standing/sitting on or above the coffin indicates that they have arisen from the dead and are waiting to ascend into heaven. Heaven represented by the Sun and Angel Gabriel.

Below: From the mouth of the Church elders, the Lamb was slain. This is referring to the message of lamb being 'killed', as the actual personage of Yahshua had already been slain. It was just as important to the Vatican to have the message 'dead on arrival'. The creature at Pope's right is 'Poseidon'/Neptune, the beast from the sea...the Pope represents the god Zeus/Jupiter. All three, the trinity, Poseidon, Zeus and the Vatican replaced God's trinity; Jupiter, Neptune, Venus in the Age of Pisces.

## Jupiter's Pattern: Philosophers, Great Wisdom, Religion

Jupiter's pattern can be seen in the minds of great philosophers, such as Plato, Socrates, and Aristotle - each perfectly reflecting Jupiter's talent and gifts'. Coming with Jupiter's influence is also the desire for abundance and growth - the bigger the better, the 'more the merrier', kind of growth – including a 'throw-away' society. The drive for power, as well as obtaining an abundance of property. Expanding fortunes and the setting of lofty aspirations becomes the energy behind great nations like the Roman Empire. While Emperors were wielding their power through commerce, military aptness, and daily affairs, a tremendous undercurrent was rapidly building up beneath the surface of the Age of Pisces, and this wave of unforeseen current was about to erode away the very foundation of the once great Empire of Rome. The desire for an acceptable theology in creating the Piscean religion caused a whirlwind,

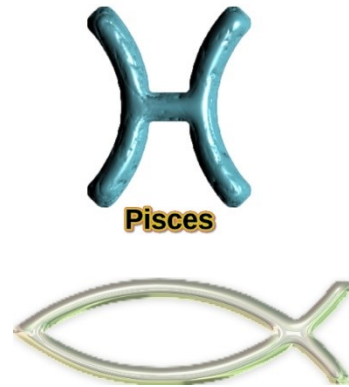

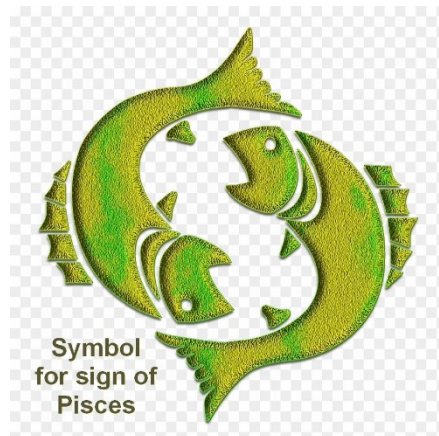

built up over the years. Jupiter was now reflecting all the necessary elements for creating an organized Church to encompass all people, their attempt at a ‘one religion to fit all’ was met with resistance and falling away. Although theologies and traditions began forming in the sixth century BC, they really didn’t leave lasting theology throughout those earlier years. It wasn’t until the German Church States, with the blessing of Rome, was successful in instituting a religion that would reach all around the world. A religion in existence for over 2000 years. Old beliefs, traditions and retired gods were molded, mixed, and shifted into place to suit the crafters – thus to please the majority; a little of this and that seemed to satisfy the masses – or should we say ‘fool’ the masses. Therefore, from the reflection of Jupiter’s influence, came an influential Church that has carried on for centuries. The Vatican’s Poseidon/Neptune reflection and influence supplied a good heaping of greed, power and control enough to obtain the desired effect. All the while, losing ground was the old Roman Empire that was built on enthusiasm, optimism, abundance, and philosophy, while striving to gain the status of a one world empire. However, the control of the Age was severely overshadowed by the beast that rose up out of the Sea: Neptune.

## Neptune’s Pattern: The Great Illusionist

Neptune represents the following patterns: things mystical, illusionary, receptive, otherworldly, intuitive, nebulous, promises never kept, borrowed traditions that make homage to sacred or divine pathways that are obscure and mirrored in vague understanding, such as many gods and goddesses. The surrender of body, mind and soul are easily seduced. Great inspiration for artists is granted. Danger lurks behind every black cloud. An involuntary spiritual connection is seduced from the minds of the unsuspecting that will transform them into an almost hypnotic state of being. One must remember to avoid the delusional aspects of those less than honorable scoundrels coming up from the cycles of the past. Neptune’s influence need not be all bad - if you know what to look for and how to avoid being a martyr or a victim where you will be held in soul-bondage, unable to explore the world of free thought. On the upside of Neptune means to leave the crowd behind and be inspired by the natural energies that is in abundance all around the natural realm of nature. Neptune also allows for the ‘great escape’. For example, my escape has been in genealogy research for the past 25 years. Before that it was doing research on the ‘lost tribes of Israel’ with articles found at: <https://the-red-thread.net>

## The Creator's Toolbox

The name 'PISCES' means FISH  
Two fish swimming in opposite directions  
Rome was the original home for Pisces  
Christianity was the Roman religion for the Great Age of Pisces

The sign of Pisces, as well as the Great Age of Pisces, is/was, originally ruled by the planet Jupiter, the largest planet in the Solar System. The pattern for Jupiter is reflected on Earth as one who likes to be the center of attention and commands 'the bigger the better', the 'more the merrier', and this pattern was reflected down from the heavens upon the largest power at the time the Age of Pisces began....that was Rome. On Earth as in Heaven. Rome was front and center throughout the entire Great Age of Pisces. You've heard it said 'all roads lead to Rome', haven't you...well, you can bet that Jupiter was the power behind Rome's greatness. Jupiter pattern reflected upon Rome, allowing for its prominent place in the world, not only referring to location in Italy, but the entire area around that section of the globe. Rome's greatness, status and influence upon the masses of

people on Earth at the time was all reflected from the heavens above, and this particular time and city, it came from the pattern of Jupiter.

Yes, God had a hand in everything, using his toolbox in the Heavens to work magic throughout time and history over the eons and Ages. God's toolbox contains the planets, stars, meteorites, comets, moons, Sun, weather systems, cycles, gravity, electro-magnetic spectrum, and on and on and so-forth. There's one thing to have all those tools in one's toolbox, but another thing on knowing how to use them to accomplish the desire effect. Only the Creator knows the extent and purpose of his toolbox.

Rome, portraying the likeness of Jupiter's influence, lost its high place upon the pinnacle of greatness – just as the planet Jupiter would lose its high position over the Age and sign of Pisces. Yes, this also happens. Rome never lost the Empire's past accomplishments, but did lose power and control for future power. The Roman Empire fell in 476 AD at the hands of Germanic tribes and lost its political power and status in the world.

You might ask how the largest planet in our Solar System can lose its place of power during the Piscean Age; or how the greatest city on Earth at the time, loses its high position. Circumstances presented itself beyond Rome's power and down it went; as also did Jupiter, from the Age of Pisces.

Planet Jupiter did not rule the Age of Pisces solely on its own, it was merely a co-ruler of the sign and Great Age and its power was more to the first half of the Age waning later into the Age. Both Jupiter and Rome's downfall from the Great Age of Pisces was by the hand of an undiscovered or 'hidden' influence that waited off stage to take over its rightful place for the Age of Pisces. Another 'on Earth as in Heaven' incident had occurred. This was a power, referred to biblically, as the 'beast that rises up from the Sea' (the sea meaning the water sign of Pisces). This beast was about to usurp authority and dominance from Jupiter/Rome, for about 1335 years during the Age of Pisces. Its influence (the beast's) was totally responsible for the "Dark" in the Dark Ages. This beast was surely a force to be reckoned with, as history will show, chiefly because it was so cunning, crafty and deceitful. The beast was responsible for millions of deaths, and for 1335 years it raised havoc all across the known world. Incredibly, after a long tumultuous span of time and nearing the end of the Piscean Age, someone would rise up to slay the beast, which didn't end its life totally, but maimed its power substantially by the strong blow to the head. Consequently, it was only wounded, not dead, but had less power. It still managed to alter its approach and be able to affect millions of

souls. Seeing that its days were numbered, this beast made the best of its time left of the Age and continued with its veil of deception right up until the close of the end of the Great Age of Pisces.

## Symbolism for Pisces & NT

- Pisces is symbolized as two fishes swimming in opposite directions; Fish was an important symbol in early Christianity, Jesus, and New Testament history. Jesus was a 'fisher' of men; catching the large net of fish so heavy they could barely pull it to shore, 153 kinds of fish. And again, Fish was the only meat permitted to be eaten on Friday for nearly 1,960 years. 153 stands for the virgin at 153 degrees of the Zodiac, which is 3 degrees Virgo, the Virgin Mother, the complimentary sign to Pisces.
- Jesus walked on water, means Jesus was mastered the entire water sign of Pisces
- Christians believe Jesus was crucified on Friday. Friday was named for the planet Venus, which is exalted in the sign and Age of Pisces
- Jesus said "Behold I am the bright and morning star" Venus follows the Sun across the Heavenly Kingdom in the heavens, and is the bright and morning star.
- The Kingdom of God's Heaven includes the cycles, patterns and influences of the Solar System, Universe, Milky Way and beyond. This is God's created 'religion', which is condemned by Rome and Christians alike as they prefer Rome's religion.
- Planet Jupiter became exalted in 1846, when planet Neptune was discovered. Neptune has rulership of the sign of Pisces; Jupiter ruled the sign of Sagittarius thereafter.
- Name 'Neptune' means OCEAN - SEAS - the 'beast' coming up from the Sea is planet Neptune with his mysterious trident.
- Jesus was born of virgin Mary, patterned after the sign of Virgo the virgin, which is the complimentary sign to Pisces and is very contributory to the Age of Pisces. The opposite sign is always complimentary to all Great Ages. The Great Age of Taurus & animal sacrifices had water sign, Scorpio, as its complimentary sign, the Great Flood and Noah's Ark occurred during the Great Age of Taurus.
- Virgin Mary, mother of Jesus, is more holy to Catholics and the Vatican, than to Christians after 1806; Virgo, the Virgin, the pattern for the birth of a son, Jesus.

- **Twelve disciples: Pisces rules the 12th house on the Zodiac and is also the 12th sign of the Zodiac.**
- **Name Jesus means ‘hail Zeus’ in Greek, the Roman god of Jupiter. Zeus is also frequently styled Xenius or "Protector of strangers". Jove is the older name the Romans had for the god Jupiter, which derives from an alteration of Jovis pater, father Jove.**
- **Zeus (Zūs) is the Greek name of Jupiter, the greatest god in Grecian mythology. He was the god of the sky and its phenomena, and as such was worshiped on the highest mountains, on which he was enthroned. Jupiter in the NT is Zeus (see page \_\_\_\_\_)**
- **Jupiter – the original ruler of Pisces until 1846 AD with discovery of Neptune. Jupiter is down-graded from Pisces and sent to sign of Sagittarius, the 9<sup>th</sup> sign. Rome in reflection, was also down-graded from power. On Earth as in Heaven.**
- **Knowledge/wisdom is hidden from average people all during Age of Pisces as Mercury, the planet that represents knowledge and learning, is positioned in the 'FALL' position in the sign of Pisces, meaning knowledge is hidden and withheld. Not until year 1611 was an English language bible printed and made available to the common people by King James I, who also was the one who reunited all the tribes of Israel in 1603, exactly 2520 years after the kingdom of Israel was dissolved in 917 BC (“Seven times” 360.)<sup>5</sup> Israel is united under Joseph, via his grandsons: Ephraim and Manasseh.**
- **Zeus/Rome becomes less important when nebulous Neptune comes to the forefront. Neptune is guilty of hiding the truth, suffering, illusionists, deceivers, burying past history, the Vatican represents Neptune’s influence.**
- **Disciple John was sent to Isle of Patmos after other disciples, and Yahshua, were killed is patterned after baby Zeus being sent away to a Greek Island of Crete for protection from Cronus, who would kill his own children, which mirrors Rome, the “father” killing their adopted son, ‘Jesus’ - their own 'god' of the Piscean Age.**
- **Jesus was killed on a trident - cross, symbolizes Christianity's end when Age of Pisces is over, to be revealed later. Neptune is ruled by the beast from the Sea, Poseidon, who carries the Trident.**

---

<sup>5</sup> <https://the-red-thread.net>

- The original old God of Pisces, Jupiter/Zeus, is sent to the sign of Sagittarius, where it/he will rule there over higher learning, deeper wisdom, which we are not privy to at this time or in times past, all things philosophical, great bountifulness and blessings, more, etc.
- Vatican, utilizing the influence of Neptune, turned the message of Yahshua into a Luciferian religion, however, this was not to be the original purpose of Yahshua's teachings – they usurped his true intent.
- Yahshua was the summation of all the Great Ages that had existed prior to Pisces, the twelfth Age. His true mission, his true purpose, was killed on the Roman trident/cross of crucifixion. The man, Yahshua, became exalted as the bright and morning star of Venus that follows the Sun across the sky every day. Lo, and behold, his influence and star are with you/us always.
- Vatican symbol chained keys, meaning they alone have the keys to 'heaven' – which is to say, they alone hold the truth to all knowledge about the Kingdom of Heaven.

## **Germanic Church States & The Holy Roman Empire**

The year was 476 AD, Barbarian tribes, who were actually warring Germanic tribes, especially the Goths and Vandals, had been struggling off and on over the years to bring the great Roman Empire down and had finally managed to do so. After that time, no Roman ruler would ever sit at the seat of power in Italy. There were several powerful rulers after Rome fell however, but they were Germanic, not Roman. There are several reasons given why Rome fell, and Evan Andrews has a list of eight causes, which are: <sup>6</sup>

- Invasions by warring Germanic tribes
- Economic troubles and over-reliance on slave labor
- The rise of the Eastern leg of Rome – Constantinople
- Over expansion of military and over spending
- Government corruption and political instability

---

<sup>6</sup> <https://www.history.com/news/8-reasons-why-rome-fell> by Evan Andrews

- The migration of Huns and Germanic tribes into Rome
- Christianity and the loss of traditional values
- Weakening of the Roman legions

What was to come after the fall of the Roman Empire would make Roman-rulership look much like a benevolent cool breeze on a hot day. Surely, Rome wasn't perfect, but replacing the power of Rome with power-hungry warring tribes proved eventually to be catastrophic and there was nothing like the turmoil that was perpetuated all across Europe after the fall of Rome's Empire. So, what was the terrible power behind the fall of Rome and eventually to Jupiter? Read on.

This commandeering of the spotlight from Rome, while it was under the influence of Planet Jupiter, came at the zenith of the Piscean Age. The giant beast boldly rose up from the Sea (*Sea refers to the water sign of Pisces*), carrying a mysterious, but powerful, staff called a Trident, in its hand. This beast with overwhelming influence at its disposal, was what the Greeks called 'Poseidon'. The Romans called this influence, 'Neptune', but both influences referred to the same entity and unbeknownst to them at that time in history, it was referring to the planet, Neptune, another one of the Creator's tools from his toolbox.

Neptune, the planet, had not been discovered by humans as of yet, but the influence and energy from this planet had always been there in the Solar System. Astronomers at the time were well aware of this energy and influence, but wasn't sure if it was a planet causing the calculated influence with other planets. Ironically, the name they gave to this energy / influence was Poseidon of the sea, and Neptune by Romans.

After the planet's official discovery, in year 1846 AD, it was officially named 'Neptune', which seemed a fitting thing to do since they had been calling it such for hundreds of years in Roman history. Prior to its discovery, unaware that this was a planetary energy and influence, they incorrectly referred to this known influence, as a god. It was to the Greeks, god Poseidon; and to Romans, god Neptune. Same with Jupiter, they, being unaware of that pattern of energy coming from a planet, had another name for it, which was god Zeus, so they transferred the name of their ancient god to the star of their religion, Jesus.

When scribing the New Testament for the Piscean religion, the man whom they referred to as Jesus, was actually paying tribute to the Roman god, Zeus, as the name 'Jesus' is, in fact, saying "hail Zeus". The proper name for the prophet-teacher who came as the Son of man or the Son of

**God, was Yahshua, not 'Jesus'. So, what that means is, the Great Age of Pisces, ruled by Jupiter, but usurped and overruled by Neptune, was giving honor to that age-old Jovian energy that Romans were quite familiar with and whom they felt comfortable with, was their god, Zeus.**

**All this is not to say that there wasn't a man, sent from the Creator, to deliver a message about the Kingdom of Heaven, as this was all true. Yahshua was as real as I am sitting here typing up this document about the Kingdom of Heaven. However, Rome didn't grasp the concept of the Son of God being true, mainly because they really didn't like the Jews and didn't trust them, after all, Yahshua was born into a Hebrew family and was not a Roman, so to them...what did he know, after all he was a Jew. In the first 300 years, Romans were not believers of Yahshua's teachings, so to them, who needed a Kingdom of Heaven when Rome was here and now, and wouldn't it be great if they ruled the entire world. For them, there was no need to worry about the Kingdom of Heaven, if it even existed, they felt Rome could supply everything a person needed right here on Earth. They didn't want to give any credit to the Creator and his tool box full of tools, and in no uncertain terms, banned any knowledge of it.**

**But, since Yahshua had a great many people who followed after his every word and believed what he was telling them, henceforth it would be hard to pull them away from such Jewish nonsense. So, they conspired as to how they could create a religion that included the man, Yahshua, somehow, but not his message. Since the New Testament wasn't written until 200 years after his crucifixion, about four generations after their Messiah was killed, long enough for them to be easily led in a new direction. Long enough that all of Yahshua's followers had since died or were killed. Yahshua's name was then changed to 'Jesus', honoring their god, Zeus.**

**Later on, in the Age, the 'beast' that rose up from the sea changed the entire teachings and purpose of Yahshua so it would be quite unrecognizable to Yahshua today. Not only was his name changed, but the message had changed greatly as well. The true message that Yahshua taught or wanted to reveal concerned the Kingdom of Heaven, which had been taught way back in time during the civilization at Sumer. A message about some new pagan religion that was going to seduce the entire world was the last thing Yahshua had on his mind. Yahshua came to tell humankind about the Creator's tool box of tools and how the 'holy' ghost (the influences from the tools) would be with them always and has been with humans since the foundation of the world.**

However, the beast from the Sea had usurped the message and to this day, unsuspecting Christians go right on worshipping Zeus, Poseidon, and the religion created by those warring Germanic tribes. The evidence of this beast can be seen in history as the Holy Roman Empire, which was anything but holy.

The planet Neptune has only been known to us, supposedly, since its discovery in 1846 AD, but it had always been the natural ruler of the sign of Pisces, and that of the Great Age of Pisces. Modern astronomers and astrologers alike, were not aware of planet Neptune but that didn't mean it wasn't there since the foundation of creation. The planet Jupiter, which was known since ancient times and during Roman times, of whom they called Jove or Zeus. Jupiter was not however, the true and authentic ruler of the water sign of Pisces. Since 1846, it has been realized that Jupiter actually rules the fire sign of Sagittarius, and religion, philosophy and higher wisdom, are a few of the subjects that fall to Jupiter's specialties. There is a more thorough list further on in this book – see page \_\_\_\_\_.

“While Jupiter has been known since ancient times, the first detailed observations of this planet were made by Galileo Galilei in 1610 with a small telescope.”<sup>7</sup>

“Newly translated ancient tablets show that ancient Babylonian astronomers used unexpectedly advanced geometry to understand the planets.”<sup>8 9</sup>

Even the Bible's New Testament refers to the planet Jupiter, which would have been during the time that Yahshua / Jesus, walked the Earth – from the book of Acts 19:35:

“And when the town clerk had appeased the people, he said, Ye men of Ephesus, what man is there that knoweth not how that the city of the Ephesians is a worshipper of the great goddess Diana, and of the image which fell down from Jupiter?”<sup>10</sup>

Note: Goddess Diana's mention may very well be referring to the opposite sign of Pisces, that of Virgo, which is represented by a virgin.

<sup>9</sup> <https://www.nationalgeographic.com/news/2016/01/160128-math-geometry-babylon-jupiter-astronomy-space/#:~:text=Babylonians%20Tracked%20Jupiter%20With%20Advanced%20Tools%3A%20Trapezoids&text=The%20Babylonians%20used%20advanced%20mathematical,moved%20across%20the%20night%20sky> .

<sup>10</sup> New Testament book Acts 19:35 King James Version

**“Diana is considered a virgin goddess and protector of childbirth. Historically, Diana made up a triad with two other Roman deities: Egeria the water nymph, her servant, and assistant midwife; and Virbius, the woodland god.”<sup>11</sup> Diana was also associated with the sign of Virgo, the Virgin.**

**Question is: how did the ancients know about planet Jupiter prior to the year 1610, the year it was discovered by Galileo? My answer would be that the gods who visited Earth thousands of years ago, the same ones that taught science, astronomy, astrology, mathematics, agriculture and languages, etc., during the Sumerian era, are the ones who taught the ancients. Historians all generally agree that Sumer was the beginning and seat of academic teaching and learning. Were these subjects taught by ET’s, gods/Gods, such as Yahshua/Jesus was known to be and came as a teacher? Is this the origin of mankind’s knowledge and belief in Gods? Why would there ever be a concept to enter the minds of humans regarding Gods or gods, if the gods hadn’t first introduced themselves to the ancients. Yahshua/Jesus wasn’t the first visitor from the heavenly realms...would he be the last?**

**Neptune’s influence added the mysterious and secretive veil over the truth by changing it and substituting fabrications and erroneous stories that made the religion they crafted more acceptable to people at that period of time. They were not yet ready for an about-face belief in a Kingdom of Heaven replacement for their stories of gods and goddesses. The powerful Germanic rulers made it unbearable for people not to believe in the religion that was bred out of the unHoly Roman Empire. Not to give one’s heart, mind and soul to the Church, meant that they would surely die and end up in a fiery hell after they die – or so they were told. Just as the twelfth sign of the Mazzaroth also rules suffering, death and bondage, many good folks were tortured to death in a most horrific way for not bowing to the Church. Those were deaths of the physical body for resisters. For believers in the early Church, their souls would be forever held in bondage – not daring to explore, learn or to expand their mind with higher wisdom, not daring to step out of the box in which the religion held them captive. Such a pity or they have missed out on the progression of their soul. Progressing up the ladder to higher realms of knowing. Why would anyone choose to do that to their eternal soul?**

---

<sup>11</sup> The Clay-footed Superheroes: Mythology Tales for the New Millennium ISBN 978-0-865-16719-3 p. 56

It should be stated here that one's soul is an energy. An energy given by the Creator at the moment of our first breath of life was taken at birth. It comes from the Creator's Spirit and is a natural occurrence to all life forms, however, the souls of humans have a much greater potential than do the soul of animals. Since the soul is energy it is also eternal. Mankind was created in the image of the Creator. The Creator consists of Spiritual Energy, which cannot be killed or done away with; it is forever – eternal. To say that our soul is not already eternal, implies that the Creator's energy is also not eternal. Well, I have news for those people – the Creator has been around since the first Adam – I mean atom, was formed. So, I repeat, our soul is eternal – only the physical body is mortal and will eventually die like a beautiful orange-red leaf on a maple tree.

Knowing the soul is eternal energy and does not die is important to understand, but also know that soul energy CAN be altered or transformed. The physical body is only a temporary home for the eternal soul. Souls, seemingly trapped in a physical body, are here on Earth to learn, to progress up the ladder of understanding, thereby increasing in experience, wisdom and knowledge, which will sometime, in all eternity, give us all-understanding, much as Yahshua exhibited while he was on Earth. Yahshua had gone up the entire ladder to 'complete-understanding' and may-well have been the first soul to do so, as he was called the 'only begotten son' of the creator...and, if the only one, thereby implying that he was the first soul who had gotten himself to the pinnacle of understanding and wisdom.

Life here on Earth has a purpose and it is not to be spent bowing to old traditions, or religions that hold the soul captive, preventing the growth of the soul. Get out of "Babylon", for your soul's sake, get out of bondage, choose to be Free. Free to learn, free to know as much as you possibly can. Search for the truth, 'seek and you will find', 'ask and it shall be revealed to you'. Experience the natural order of the Universe, get to know and realize the Mazzaroth. Know that there is a Heavenly Kingdom, which has been all around us since the foundation of the world. Children, as they grow, possess an open mind and want to learn all things, their little minds will ask, why, why, why, and how, how, how – "such as little children, (who have an open and ready mind), are those who benefit from and know the true Kingdom of Heaven.

**Note: What is referred to as Babylon when the book of Revelation warns us to 'get out of Babylon my people'. Here is the definition of that warning:**

**From the Hebrew word “Babylon” comes the meaning: ‘of confounded and mixed confusion; to mingle the unnatural with the natural by implication; to feed or teach the masses an unnatural mix, meaning contrary to the laws or course of nature; or to be at variance to, or with, that which was originally taught or purposed.’**

“The fall of Babylon is a historical event that occurred in 539 BC. This event saw the conquest of Babylon by the Achaemenid Empire under Cyrus the Great and marked the end of the Neo-Babylonian Empire. The fall of Babylon is reported by a number of ancient sources, including the Cyrus Cylinder, the Greek historian Herodotus, as well as a number of books in the Old Testament.”

12

The meaning of ‘Babylon’ comes across loud and clear to be the workings of the beast that rose up from the sea / Great Age of Pisces, who is represented by the planet, Neptune. The description fits perfectly Neptune’s influence. During the Age of Pisces, remember, when you read that Rome represented Jupiter’s reflection here upon the Earth; well, here upon the Earth, the representation of Neptune is the unHoly Roman Empire, which had/has its seat at the Vatican. The Church, the religion, the Vatican all represent Babylon. To ‘get out of Babylon’ is a warning for people to get out of Catholicism, and since the entire religion of Christianity is based on the New Testament, which comes out of the mouth of the sea-beast that was formed and crafted by Germanic tribes and force-fed to the masses under the direction of the unHoly Roman Empire. So, where does that leave us as far as what to believe in? What to believe...where and how does Yahshua fit in the natural picture that was intended? Know this...what Yahshua taught was what he called the ‘Good News’. He was teaching that the good news was about the Kingdom of God also called the Kingdom of Heaven. He was excited about this Kingdom and wanted to tell people about it. In the Hebrew, the word Heavenly Kingdom implies a realm which was in the heavens or skies; one that had a holy or royal rulership where one could begin ascension to that Kingdom. In the Greek NT, Heavenly Kingdom refers to: royalty, rule, a celestial realm literal or figurative where royalty reigns; belonging to or coming from the skies. Describes pretty well the Mazzaroth.

**Job 38:31 “Canst thou bind the chains of the Pleiades, or loose the bands of Orion? 32 Canst thou lead forth the Mazzaroth in their season? Or canst thou guide the Bear with her sons? 33 Knowest thou the ordinances of the heavens? Canst thou establish the dominion thereof in the earth?”**<sup>13</sup>

---

<sup>12</sup> <https://www.ancient-origins.net/ancient-places-europe/fall-babylon-0011090>

<sup>13</sup> [www.mechon-mamre.org](http://www.mechon-mamre.org) – Hebrew bible

**Note: Hebrew meaning of Mazzaroth: there are different spellings found: Mazzarot, Mazzalot, Mazalot -where the Yiddish word or expression ‘mazel tov’ meaning ‘good luck’ comes from. The Mazzaroth refers to the Zodiac, Constellations, Great Ages, Signs, Stars, Planets, Solar System...as a Garland of Crowns, the influence thereof of each; generally meant in the sense of Astrological inference rather than astronomical.**

**Of the stars seen in the heavens: “And God said, Let there be lights in the firmament of the heaven to divide the day from the night; and let them be for signs, and for seasons, and for days, and years.” <sup>14</sup> The KJV translates Strong’s Hebrew 226 in the following manner: sign(s) (60x), token(s) (14x), ensign(s) (2x), miracles (2x), mark (1x).**

**Speaking of lights in the heavens; consider the ‘Star of Bethlehem’, that bright light seen in the skies at the birth of Yahshua, which seemed to move in the direction of Bethlehem, therefore guiding three Magi? You are going to read something that you may have never heard before – and it goes like this: Assuming that we’ve all heard of Julius Caesar, the Roman politician, the originator of the Julian Calendar, the uncle of Augustus Caesar, whom was adopted as a son by Julius. That Julius Caesar was the 3<sup>rd</sup> person in Rome’s First Triumvirate of 60-53 BC, along with Pompeius and Crassus. That Julius Caesar was born c.100 BC and was killed on March 15, 44 BC (known as the Ides of March). But, have you heard there was a ‘star’ (a Comet) that streaked across the sky during his funeral festival in Rome in celebration of his life? This event occurred on July 23, 44 BC during the celebration and was viewed for 56 days. After this sighting, the Romans took it as a sign that Caesar had ascended into heaven and was to become a divine god. Julius Caesar was held in a much higher esteem after that event, which transferred to the nephew/son, Octavius Augustus Caesar, who thought he was the divine son of a God. It is also called Star of Caesar.**

---

<sup>14</sup> Genesis 1:14

## Caesar's Comet of 44 BC

**“Caesar's Comet was a seven-day cometary outburst seen in July 44 BC. It was interpreted by Romans as a sign of the deification of recently assassinated dictator, Julius Caesar. It was perhaps the most famous comet of antiquity.”** <sup>15</sup>

**“In the 20th century, Professor Karlis Kaufmanis, an astronomer, argued that the (*Star of Bethlehem*), was an astronomical event where Jupiter and Saturn were in a triple conjunction in the constellation Pisces. Archaeologist and Assyriologist Simo Parpola has also suggested this explanation.”** <sup>16</sup>

**“Dr. Kaufmanis describes how the birth of Christ was announced, not by a single object in the sky, but by an astronomical event where Jupiter, the King star, and Saturn, the star of the Messiah, appeared together in the constellation, Pisces, or Fish, known to astrologers as the House of the Hebrews, in the eastern sky at sunrise, or at the heliacal rising. Kaufmanis surmises that the wise men were astrologers who predicted, along with ancient Hebrew tradition, that this long-awaited event would announce the birth of the Messiah in Bethlehem.”** <sup>17</sup>

**While I agree with much of Kaufmanis' quote, I believe the Jupiter-Saturn conjunction of 7 BC, signaled the official start of the Great Age of Pisces, ending the Age of Aries. Remember, there is an overlapping of the two signs as they change – where the two signs themselves seem to be at conjunct, several years in fact. There is always a forerunner to the official start of the new Age. In the case of 7 BC, the forerunner may well have been the Julian Comet. Julian died=comet streaking across the sky with a long tail foretelling of things to come; Yashua's birth=conjunction of Jupiter and Saturn. The Passing of the Torch. I believe the Great Age of Pisces began in 44 BC.**

**The more recent date of December 21, 2020, gave us another astrological event called the conjunction of Jupiter and Saturn. The fact that these two planets came together in the air sign of Aquarius, announces the official start of the Age of Aquarius – the end of Pisces, the water sign.**

---

<sup>15</sup> [https://en.wikipedia.org/wiki/Caesar%27s\\_Comet](https://en.wikipedia.org/wiki/Caesar%27s_Comet)

<sup>16</sup> Dr. Karlis Kaufmanis <https://sites.google.com/site/astrologicalstarofbethlehem/>

<sup>17</sup> <https://sites.google.com/site/astrologicalstarofbethlehem/>

This latest conjunction is the closest they could be seen in the sky together for nearly 800 years – usually it is either too close to the Sun or not visible from the Earth.

## The Beast and the Ten Toes

The beast that rose up from the sea employing that mysterious trident, which was used as a weapon exerting punishment and death, as a result of applying Neptune’s influence. Influence once thought to be given by gods not realizing it was coming from planets. The trident could take on many forms, including the cross of crucifixion, on which Yahshua was crucified, as well as others during Roman times. The reasoning behind the original staff carried by Popes with the cross bearing the crucified Yahshua, was in fact, representing the success and accomplishment of Poseidon.

It didn’t take long for Yahshua’s message about the Kingdom of Heaven to be commandeered, seized, changed (*180 degrees*) to give the beast, Neptune/Holy Roman Empire/Vatican total importance, spotlight, control and power. Whereas, the true message regarding the Kingdom of God (*Kingdom of Heaven*) was made to look sinful, pagan and forbidden. Reread the meaning of the word ‘Babylon’ from page 14.

When the Empire of Rome lost dominant control, primarily because of their careless liberal weakness, which had put them in a state of contentment, they easily succumbed to the mastery of the scheming sea-beast. After Rome’s demise the known world caused a huge void that was just ripe for persistent warring Germanic tribes to take over dominance throughout Europe. Some of those Germanic rulers became the originators of the Holy Roman Empire. These barbaric tribes, gaining influence with, and over, the Roman Empire, thereby snatching control over Rome’s circumstance.

PAPAL  
CRUCIFIX

All of Italy, Europe and beyond, without a ruling empire, wouldn’t last long, the void would certainly be filled sooner or later. No matter which tribal people it happened to be, the result would have been the same as the ‘beast that rose from the sea’ was the actual influence behind the tribes. This period of time developed as a deadly and most

horrific condition for the entire continent of Europe, and eventually to the new world and beyond. The newly formed Holy Roman Empire was disguised as a lamb but in fact was a wolf in sheep's clothing. These Germanic tribes are written by the prophets as the 'ten toes' belonging to the beast, Neptune, and these Toes rose up from the ashes of the Roman Empire.

The Germanic 'Holy Roman Empire' became more detrimental to the message of Yahshua after his death, than perhaps Rome was before, and because of, his physical death. Rome murdered Yahshua's physical body, and also those of his disciples and eventually over the period known as the 'dark ages', thousands of Yahshua's followers in their attempt to eradicate the 'good news' about the Kingdom of Heaven. However, the most unholy, Holy Roman Empire, created by the ten toes, i.e. Germanic tribes, under the influence of the Sea-beast, Neptune, is responsible for millions of souls being held in bondage – even today. Losing the authority over one's own soul can be eternal, as the soul does not die.

When you read that the soul is energy and energy being eternal, as in forever, however, keep in mind that soul-energy can be altered, changed and sold. Just ask Esau about that possibility. After the death of the physical mortal body- that soul-energy can either go back to the Creator who gave it, or it can join the souls who are kept in a 'hell-like' bondage. Hell is not a place where bodies are burned in fire for all eternity, it is referring to souls that are bound by the beast, kept in bondage – not allowed to progress up the ladder to higher wisdom and understanding. Hopefully, soon, those prison doors will be opened and the souls of the captives set free.

After the death of Yahshua and after the fall of Rome, after the destruction of the Jewish Temple and that of the city of Jerusalem in 70 AD, the religion of Christianity quickly spread across Europe. In fact, under the rule of several different powers during the centuries that followed the sacking of Rome, Christianity was ordered the mandatory religion. Protestors and resisters, of course, were met with the punishment of cruel and ruthless suffering, which, if you were lucky, brought on a quick death.

Constantine the Great was born on February 27, the year was circa 275-285 AD. His father was Roman and his mother was Greek. Constantine was a Roman Emperor from 306-337 AD and was the first Roman emperor to convert to Christianity around 300 AD and thereafter made Christianity the mandatory religion throughout the Roman Empire. In 324 AD, the ancient city of Byzantium was made the new eastern capital of the Roman Empire by Emperor Constantine the

Great, for whom it was renamed, 'Constantinople'. The city was dedicated in May of 330 AD.<sup>18</sup> This Eastern empire was biblically called, the left leg of the Rome, the right leg being the Empire situated in the city of Rome.

“...Roman Emperor Constantine (c 280-337 AD) was one of the most influential personages in ancient history. By adopting Christianity as the religion of the vast Roman Empire, he elevated a once illegal cult to the law of the land. At the Council of Nicaea, Constantine the Great settled Christian doctrine for the ages. And by establishing a capital at Byzantium, which became Constantinople, and then Istanbul, he set into motion events that would break the empire, split the Christian church, and influence European history for a millennium.”<sup>19</sup>

“He (*Constantine*) played an influential role in the proclamation of the Edict of Milan in 313 AD, which declared tolerance for Christianity in the Roman Empire. He was recognized for the First Council of Nicaea in 325 AD, which produced the statement of Christian belief known as the Nicene Creed. The Church of the Holy Sepulchre was built on his orders at the purported site of Jesus' tomb in Jerusalem and became the holiest place in Christendom. The papal claim to temporal power in the High Middle Ages was based on the fabricated donation of Constantine. He has historically been referred to as the 'First Christian Emperor' and he did favor the Christian Church.”<sup>20</sup>

After the sacking of Rome in 476 AD, nearly c.150 years after Constantine the Great issued the Nicene Creed allowing Christianity. This opened the door for Christianity to be the mandatory religion across the Roman Empire and henceforth, the duration of the Great Age of Pisces.

After Rome ordered the execution of Yahshua, and after the destruction of the Jewish 2<sup>nd</sup> Temple in 70 AD, along with the city Jerusalem at the same time; is it any wonder why Rome fell? Had the Creator used the Hebrew tribe of Dan, i.e. the Germanic tribes to do the sacking of Rome? Has God used the Germanic peoples for other purposes as well?

Later, along came a man named Justinian, the year was c.529 AD. Justinian I, then Emperor of Constantinople, the Eastern leg of Rome, who ordered all people to support the Christian religion

<sup>18</sup> Mango, Cyril (1991). "Constantinople". In Kazhdan, Alexander (ed.). The Oxford Dictionary of Byzantium. Oxford and New York: Oxford University Press pp. 508–512. ISBN 0-19-504652-8

<sup>19</sup> <https://www.thoughtco.com/ns-gill-111288>

<sup>20</sup> <https://www.worldcat.org/title/byzantium/oclc/18164817>

exactly as they had so-written and implemented it, making it again the only religion to be practiced in Constantinople. In 534 AD the completion of ‘Justinian’s Law Code’ became law. This book of codes consisted of twelve books, with book 1 stating how the religion was to be and listing religious laws, sources of the law, and the duties of higher offices; books 2–8 covered private law; book 9 dealt with crimes; and books 10–12 contained administrative law.

Christianity became disguised much like the description and definition of ‘Babylon’, see again page 14 for definition. Since this pseudo ‘holy’ religion became the theology for the Eastern leg of Rome, is it any reason that Constantinople fell to the Ottoman Turks in 1453 AD? Had the Creator used the descendants of Ishmael (the Muslim Turks) to carry out the sacking of Constantinople and the Eastern leg of the Roman Empire?

The crusade of this Roman religion, disguised as Christianity based on Yahshua, became so powerful that it swept across time like a great Piscean flood, reaching all corners of the Earth. Its garnered strength and longevity by strict enforcement through fear, death, inquisitions and complete discombobulation of the true message of Yahshua. Rome had previously burned the largest library on Earth, situated in Alexandria, Egypt. It is always a sad state of affairs when true history is destroyed and replaced with falsehoods, fabrications and erroneous stories.

**“The most accepted date for the foundation of Rome is 753 BC. The first form of government in Rome was monarchical according to the archaeological findings and the legends.”<sup>21</sup>**

Some say that western Rome’s biggest reason for collapse in 476 AD resulted in military losses as a result of constantly warring with Germanic tribes, aka, barbarian tribes, originating around 300 AD.

Rome had hoped, as the Assyrians and Babylonians had done previously in the Great Age of Aries, to wipe out everything that was Hebrew. Hide the fact that they had been the chosen people during the Age of Aries, their religion, the city of Jerusalem, the Jewish Yahshua; all Sabbath days and Hebrew traditions were a menace to them so they conspired to diminish the importance of the God from the previous Arian Age. In order for them to accomplish this was by quickly appointing a new god to a place of equal, if not higher position, than that of the former God, which would have been Mars, god of the Great Age of Aries. Mars is mirrored by the Old Testament God, Yahweh.

Rome, under the influence of nebulous Neptune, went so far as to allow the previous OT God, Yahwah, an equal place in their TRINITY of characters, but did not actually give him a proper name, the Church's trinity consisted of "the Father, Son, and Holy Ghost". The idea of a 'trinity of divinity' came from ancient Babylon and Assyria and was carried over into the new religion at Rome. Although the trinity for the Age of Pisces may very well have been referring to a much different trinity of three entities. [father: Julius Caesar, son: Augustus Caesar and Holy Ghost: Rome's power.]

Yes, we should never forget the thousands of people who were unmercifully killed all throughout those Dark 'Middle' Ages of time in humankind's history. Still, as I write these words

on January 2, 2021, Yahshua’s true message about the Kingdom of Heaven has not been outwardly taught... however, this needs to be done before the return of the Anointed One when he comes to gather up his remnant of souls. This event is known as the rapture and in past Ages it happens at the beginning of the Age. The rapture of first-fruits from the Great Age of Aries happened at the death of Yahshua. Upon his raising up from the tomb, a remnant of his chosen souls was raptured with him. Although this occurred in the Age of Pisces, the remnant was from the previous Age.

The 'Holy Roman Empire' became an official German-state empire from years 800 AD to 1806 AD. On December 25, 800 AD, Pope Leo III crowned the Frankish King Charlemagne as Emperor and Pope. This date became very important to the Church as this was the founding day of the Holy Roman Empire – not the birthday of Yahshua, nor Jesus, nor Zeus either, for that matter. It is the founding of the Holy Roman Empire that early Roman Christians were actually celebrating on Christmas Day, unbeknownst to them it would appear.

Below is a list of Germanic Tribes / Ten Toes

<b>Alamanni</b>	<b>Anglos</b>	<b>Burgundians</b>	<b>Franks</b>	<b>Goths/Visigoths</b>
<b>Jutes</b>	<b>Lombards</b>	<b>Ostrogoths</b>	<b>Saxons</b>	<b>Vandals</b>

The ten 'toes', refer to the Germanic tribes that emerged out of the eastern part of the Carolingian Empire. “The Carolingian Empire (800–888) was a large Frankish-dominated empire in western and central Europe during the early Middle Ages. It was ruled by the Carolingian dynasty, which had ruled as kings of the Franks since 751 and as kings of the Lombards in Italy from 774. In 800, the Frankish king Charlemagne was crowned emperor in Rome by Pope Leo III in an effort to transfer the Roman Empire from east to west. The Carolingian Empire is considered the first phase in the history of the “Holy Roman Empire”, which lasted until 1806.”<sup>22</sup>

The Papal States, or the Germanic States, operated as a sovereign political entity that were planted in the 6th century. Beginning in 535 AD, the Eastern Roman Empire, under Emperor

Justinian I, launched a reconquest of Italy that took decades and devastated Italy's political and economic structures.<sup>23</sup>

June 23, 1796: – “**Napoleon Bonaparte seizes the Papal States**, which become part of the revolutionary Cisalpine Republic. Pope Pius VI signs the Armistice of Bologna, and is forced to pay a contribution (34 million francs).”<sup>24</sup> This unholy and ruthless Holy Roman Empire beast stayed powerful until Napoleon finally put an end to it in the year 1806 AD. The Holy Roman Empire was anything but Holy, it was probably the evilest power that ever existed on the face of the earth.

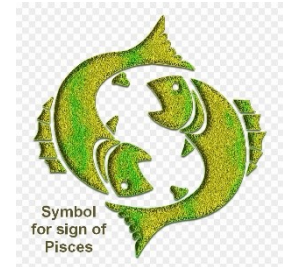

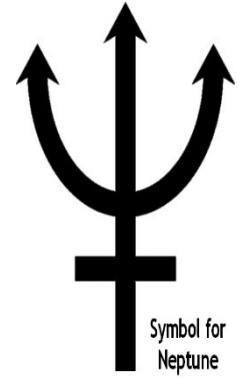

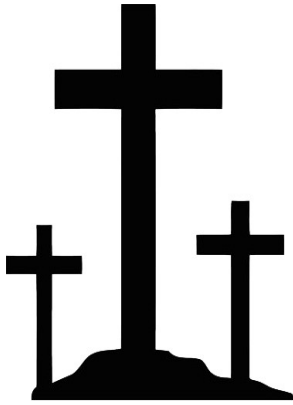

Note: This is Part One covering the Great Age of Pisces; the incoming Great Age of Aquarius will be covered in Part Two

PAPAL  
CRUCIFIX

Poseidon

Betmatrtho Publications Plate12b

The Pope plays the part of Poseidon – Neptune  
Killing the lamb / Jesus / Yahshua

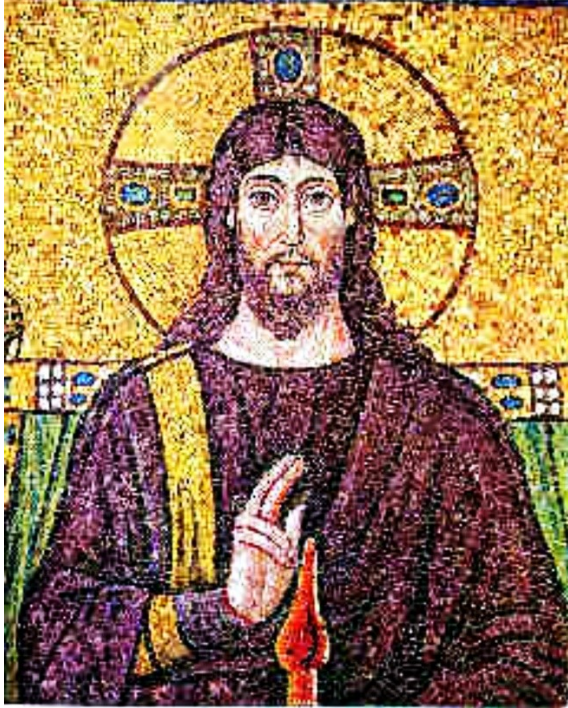

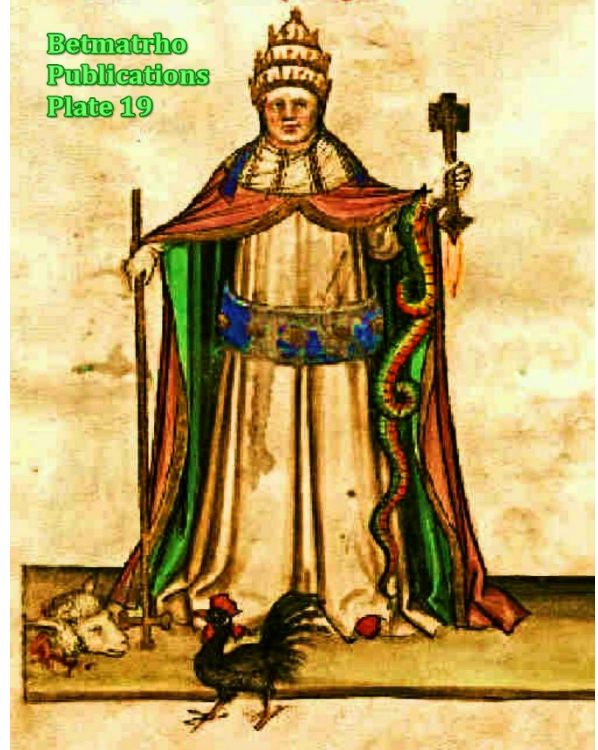

This is Zeus & his Eagle

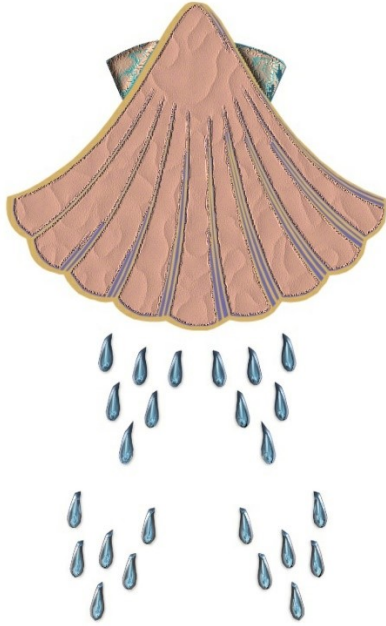

Notice how the 'cross' and his body forms a trident

Showing how Pope's staff killed the lamb

**Question: Does the Pope represent Poseidon or Jesus in reality. If the Papacy is responsible for killing the lamb, Jesus / Yahshua, was he acting on behalf of Poseidon?**

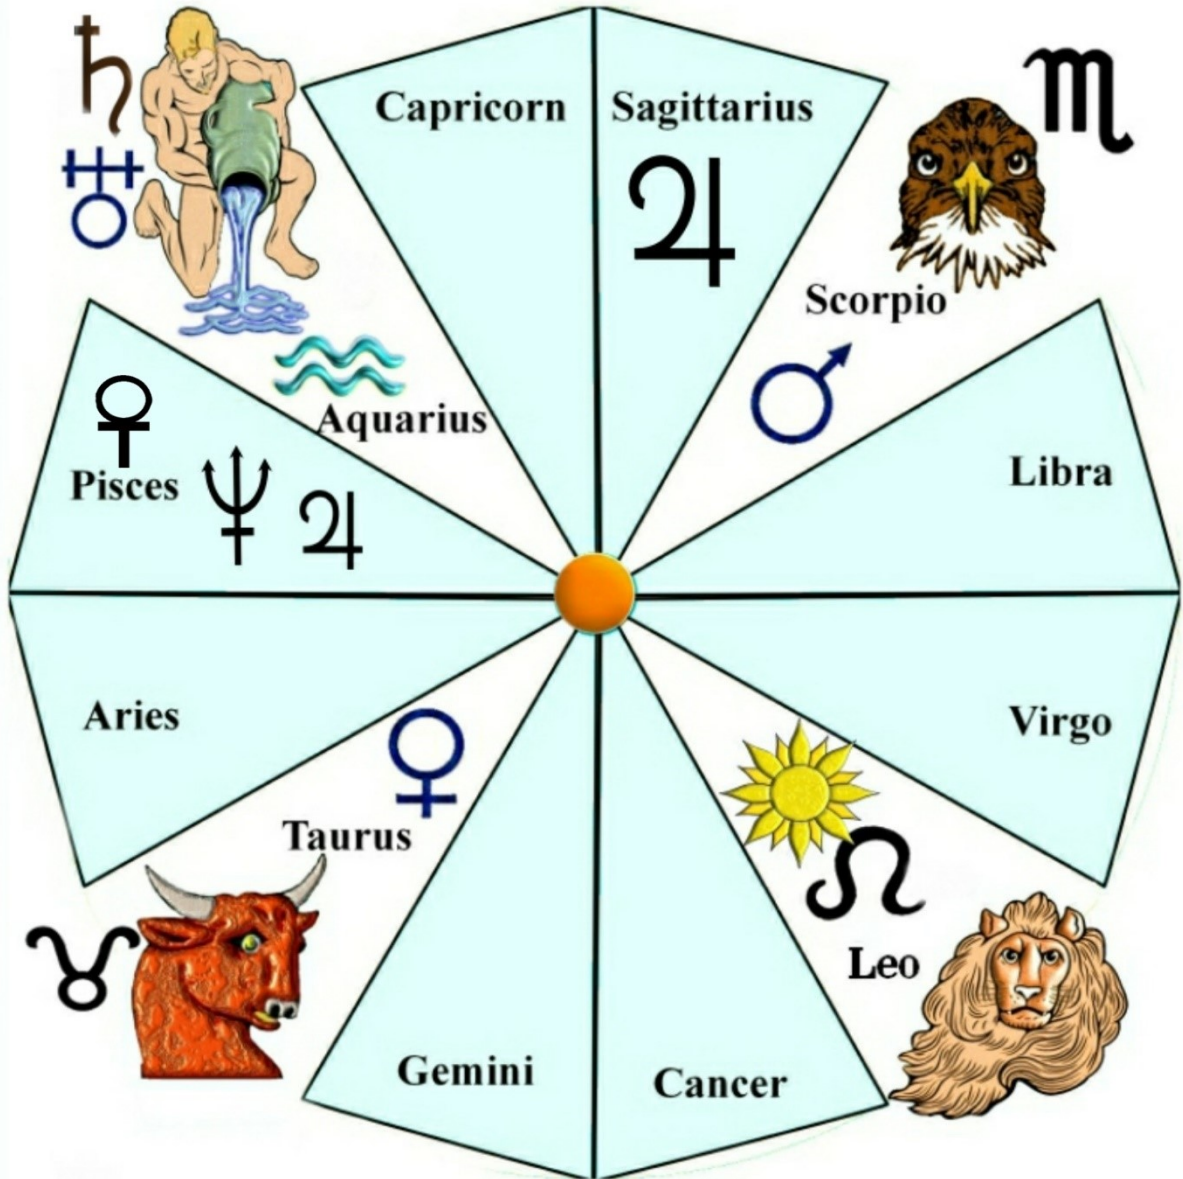

**Baptismal Symbol**  
see symbol for age of Aquarius

**Symbol for Aquarius**  
God raining down the Spirit of  
Blessings & Wisdom - this is  
Spiritual rain - not water

**Baptism represents coming up  
out of the Water of Pisces as a new  
person before entering into the  
Air sign of Aquarius  
This baptism was for the body  
At right is a baptism for the Soul**

**From the Heavens,  
Blessings and Spiritual  
Wisdom that cleanses the Earth  
Here, ascension is possible  
Rejuvenating rains from above  
Provide a baptism of the Soul**

The ancient Zodiacal Wheel corresponds to Ezekiel's four creatures seen in a vision: God is author of both.  
**A Man, a Lion, an Ox and an Eagle**

THIS WHEEL PORTRAYS WHAT EZEKIEL SAW IN HIS VISION.

The symbology of which was first given to humans in the land of Sumer at the same time that science, mathematics, languages and agriculture was taught to the ancients by the gods (ET's)
